Capture Paper Forms

LOOKING FOR A PAPER DIGITIZATION SOLUTION TO MEET YOUR BUSINESS NEED?

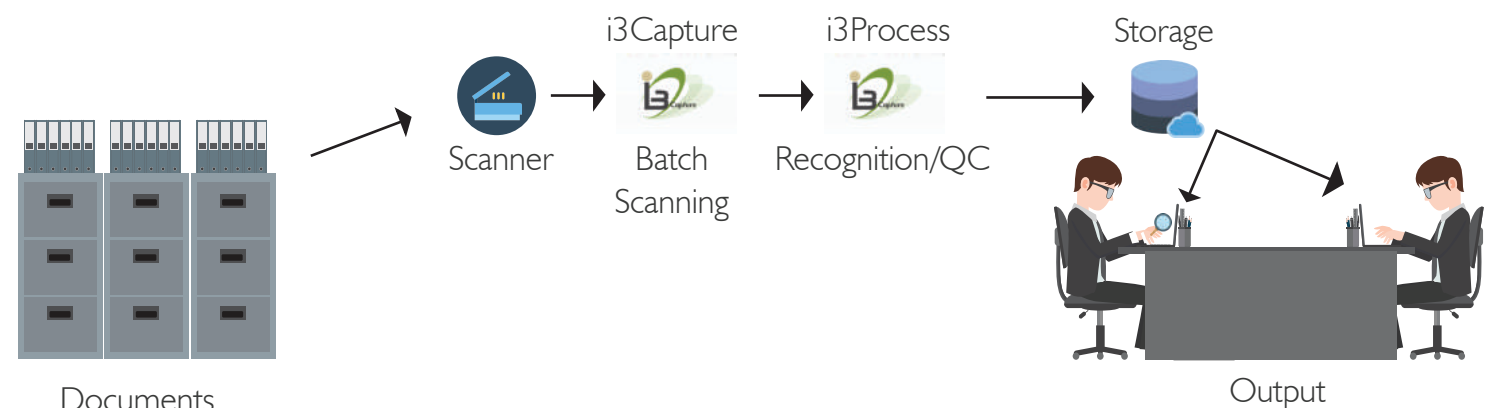

WE HAVE THE BEST SOLUTION FOR YOU!

i3Capture is a simple, scalable, flexible and proven solution that transforms paper forms into digital images. Hence, it is a cost effective, simple and time saving digitization solution that can be configured on premises, in the cloud or in a hybrid environment for information intensive business clients and government organizations.

WHAT IS i3 CAPTURE?

i3Capture allows a user to electronically capture paper documents, optionally extract metadata from pre-configured zones using OCR, ICR, MICR or Barcode recognition, and create digital image files with associated metadata output file. The application utilizes three stages: Capture, Process and Output has user friendly GUI features for defining scanning, recognition and output configuration. It features powerful document & batch separation with the capability to extract data to automate document processing.
